Plant Cell, Tissue and Organ Culture **27**: 353–355, 1991

CONTENTS Volume 27 1991

Volume 27 No. 1

Jacquin-Dubreuil A., Chetrit S., Fliniaux M.A., Trinh T.H., Cosson L. & Tran Thanh Van K.: Study of the alkaloid content of four 'hypohaploids'' of *Nicotiana plumbaginifolia* grown in vitro 1
Gray D.J. & Benton C.M.: In vitro micropropagation and plant establishment of muscadine grape cultivars (*Vitis rotundifolia*) 7
Laublin G., Saini H.S. & Cappadocia M.: In vitro plant regeneration via somatic embryogenesis from root culture of some rhizomatous irises 15
Mathur J.: Enhanced somatic embryogenesis in *Selinum candolii* DC. under a mineral oil overlay 23
Tiburcio A.F., Figueras X., Claparols I., Santos M. & Torné J.M.: Improved plant regeneration in maize callus cultures after pretreatment with DL-alpha-difluoromethylarginine 27
Afele J.C. & De Langhe E.: Increasing in vitro germination of *Musa balbisiana* seed 33
Iapichino G., Chen T.H.H. & Fuchigami L.H.: Plant regeneration from somatic tissue of *Rhododendron laetum · aurigeranum* 37
Chambers S.M., Heuch J.H.R. & Pirrie A.: Micropropagation and in vitro flowering of the bamboo *Dendrocalamus hamiltonii* Munro 45
Kvaalen H. & von Arnold S.: Effects of various partial pressures of oxygen and carbon dioxide on different stages of somatic embryogenesis in *Picea abies* 49
Harvey B.M.R., Crothers S.H., Evans N.E. & Selby C.: The use of growth retardants to improve microtuber formation by potato (*Solanum tuberosum*) 59
Rout G.R., Debata B.K. & Das P.: Somatic embryogenesis in callus cultures of *Rosa hybrida* L. cv. Landora 65
Mosquim P.R. & Sodek L.: Culture of soybean fruit explants: growth conditions and efficiency of nitrogen sources for reserve protein synthesis 71
Atkinson N.J., Newbury H.J. & Ford-Lloyd B.V.: In vitro adventitious root induction in *Antirrhinum majus* L. 77
Linnington I.M.: In vitro propagation of *Dipterocarpus alatus* and *Dipterocarpus intricatus* 81
Kuoksa T. & Hohtola A.: Freeze-preservation of buds from Scots pine trees 89
Tremblay L. & Tremblay F.M.: Carbohydrate requirements for the development of black spruce (*Picea mariana* (Mill.) B.S.P.) and red spruce (*P. rubens* Sarg.) somatic embryos 95
Fehér A., Felföldi K., Preiszner J. & Dudits D.: PEG-mediated transformation of leaf protoplasts of *Solanum tuberosum* L. cultivars 105

Volume 27 No. 2

Van Uden W., Pras N., Homan B. & Malingré T.M.: Improvement of the production of 5-methoxypodophyllotoxin using a new selected root culture of *Linum flavum* L. 115
Abe J., Nakashima H., Mitsui K., Mikami T. & Shimamoto Y.: Tissue culture response of *Beta* germplasm: callus induction and plant regeneration 123
Ooms G. & Moore K.: A novel assay for genetic and environmental changes in the architecture of intact root systems of plants grown in vitro 129
Hagendoorn M.J.M., Zethof J.L.M., Van Hunnik E. & Van der Plas L.H.W.: Regulation of anthocyanin and lignin synthesis in *Petunia hybrida* cell suspensions 141
Kataeva N.V., Alexandrova I.G., Butenko R.G. & Dragavtceva E.V.: Effect of applied and internal hormones on vitrification and apical necrosis of different plants cultured in vitro 149
da Câmara Machado M.L., da Câmara Machado A., Hanzer V., Kalthoff B., Weiß H., Mattanovich D., Regner F. & Katinger H.: A new, efficient method using 8-hydroxy-quinolinol-sulfate for the initiation and establishment of tissue cultures of apple from adult material 155

Son S.H., Chun Y.W. & Hall, R.B.: Cold storage of in vitro cultures of hybrid poplar shoots (*Populus alba* L. x *P. grandidentata* Michx.) 161
Do C.B. & Cormier F.: Effects of high ammonium concentrations on growth and anthocyanin formation in grape (*Vitis vinifera* L.) cell suspension cultured in a production medium 169
Falque M., Compan D. & Galzy R.: A method for the study of CO_2 exchanges in in vitro cultured *Vitis rupestris* plantlets 175
Orinos Th. & Mitrakos K.: Rhizogenesis and somatic embryogenesis in calli from wild olive (*Olea europaea* var. *sylvestris* (Miller) Lehr) mature zygotic embryos 183
Genga A. & Allavena A.: Factors affecting morphogenesis from immature cotyledons of *Phaseolus coccineus* L. 189
Sowa S. & Towill L.E.: Effects of nitrous oxide on mitochondrial and cell respiration and growth in *Distichlis spicata* suspension cultures 197
Preece J.E., Navarrete N, Van Sambeek J.W. & Gaffney G.R.: An in vitro microplant bioassay using clonal white ash to test for tall fescue allelopathy 203
Simonton W., Robacker C. & Krueger S.: A programmable micropropagation apparatus using cycled liquid medium 211
Krueger S., Robacker C. & Simonton W.: Culture of *Amelanchier* x *grandiflora* in a programmable micropropagation apparatus 219
Krogstrup P. & Nørgaard J.V.: Micropropagation of *Psiadia coronopus* (Lam.) Benth, a threatened endemic species from the island of Rodrigues 227

Volume 27 No. 3

Simmonds D.H., Long N.E. & Keller W.A.: High plating efficiency and plant regeneration frequency in low density protoplast cultures derived from an embryogenic *Brassica napus* cell suspension 231
Vahala T. & Eriksson T.: Callus production from willow (*Salix viminalis* L.) protoplasts 243
Cousineau J.C. & Donnelly D.J.: Adventitious shoot regeneration from leaf explants of tissue cultured and greenhouse-grown raspberry 249
Waara S., Wallin A., Ottosson A. & Eriksson T.: Factors promoting sustained divisions of mesophyll protoplasts isolated from dihaploid clones of potato (*Solanum tuberosum* L.) and a cytological analysis of regenerated plants 257
Messner B., Boll M. & Berndt J.: L-Phenylalanine ammonia-lyase in suspension culture cells of spruce (*Picea abies*). Induction by UV-light and fungal elicitor 267
Van Ark H.F., Zaal M.A.C.M., Creemers-Molenaar J. & Van der Valk P.: Improvement of the tissue culture response of seed-derived callus cultures of *Poa pratensis* L.: Effect of gelling agent and abscisic acid 275
Ellis D.D., Barczynska H., McCown B.H. & Nelson N.: A comparison of BA, zeatin and thidiazuron for adventitious bud formation from *Picea glauca* embryos and epicotyl explants 281
Nikova V.M., Zagorska N.A. & Pundeva R.S.: Development of four tobacco cytoplasmic male sterile sources using *in vitro* techniques 289
Sudarshana M.S. & Shanthamma C.: *In vitro* regeneration from excised leaves of *Flaveria trinervia* (Sprengel) C. Mohr 297
Hawes M.C., Smith L.Y. & Stephenson M.: Root organogenesis from single cells released from the root cap of *Medicago* sp. 303
Smith E.F., Roberts A.V., Mottley J. & Denness S.: The preparation *in vitro* of chrysanthemum for transplantation to soil. 4. The effects of eleven growth retardants on wilting 309
Abu-Qaoud H., Skirvin R.M. & Below F.E.: Influence of nitrogen form and NH_4^+-N/:NO_3^--N ratios on adventitious shoot formation from pear (*Pyrus communis*) leaf explants *in vitro* 315
Dan Y. & Stephens C.T.: Studies of protoplast culture types and plant regeneration from callus-derived protoplasts of *Asparagus officinalis* L. cv. Lucullus 234 321

Bertrand-Desbrunais A., Noirot M. & Charrier A.: Minimal growth *in vitro* conservation of coffee (*Coffea* spp.). 1. Influence of low concentrations of 6-benzyladenine 333
Arrillaga I., Marzo T. & Segura J.: Micropropagation of juvenile and adult *Sorbus domestica* L. 341
